BREXIT starts with a new UK Fintech launch

By: *Rewire Holding LTD*

LONDON - Jan. 18, 2021 - PRLog -- Rewire Holding LTD, announces the launch of its Fintech product using the registered brand Saurus.com backed by 3 patent families. Users can now open current accounts in EUR and GBP in minutes and get instantly a virtual Mastercard and order a physical card from the same App.

The company aims to improve financial and social inclusion, providing current accounts for those in rural areas and target Hispanic and Muslim diasporas. Rewire Holding obtained Shariah compliant certification from Global Islamic Financial Services Firm PTY.

Saurus.com APP users will soon be able to make and receive payments also through shared internet from smartphones of nearby users.

Our "Bumping" technology will allow future smartphones to act as a virtual ATM, for nearby users to deposit cash through them and receive instantly that money in electronic form in their first ever created current account.

Businesses will be able to reduce their operating cost when collecting payments with our proprietary POS card-payment system.

CEO, Jose Merino is a former Silicon Valley based Vice President of operations of Philips Consumer Communications and a successful co-founder & COO of Sensei Ltd which he took from start-up to exit to Vtech Holdings.
